Smart and Secure Login Using Single Sign-On (SSO)

Simplifying Attendees Online Experience

Enable your attendees to easily access your virtual conference or trade show portal. Provide a hassle-free login experience leveraging the power of Single Sign-On (SSO). Have your attendees enter their member portal credentials just once and allow access to multiple platforms. Implementing SSO with EVA means a fully data-secure and seamless user-authentication process, irrespective of the type of authentication - multi-factor or biometric. EVA uses a trusted, security-compliant, and proven identity provider for smoothly running SSO on your virtual platform.

Greater Security and Compliance
